INDEPENDENT AUDITOR'S REPORT

To the Board of Education
Wolverine Community Schools
Wolverine, Michigan

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wolverine Community Schools, Wolverine, Michigan as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Wolverine Community Schools, as of June 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Wolverine Community Schools and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Wolverine Community Schools' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Wolverine Community Schools' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Wolverine Community Schools' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as identified in the table of contents, on pages 4-10 and 46-51 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Wolverine Community Schools' basic financial statements. The accompanying combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 31, 2024, on our consideration of Wolverine Community Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Wolverine Community Schools' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Wolverine Community Schools' internal control over financial reporting and compliance.

WOLVERINE, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2024

This section of Wolverine Community Schools' ("the District") annual report presents our discussion and analysis of the District's financial performance during the year ended June 30, 2024. Please read it in conjunction with the District's financial statements, which immediately follow this section.

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The report also contains other supplementary information in addition to the basic financial statements themselves.

A. Government-Wide Financial Statements

The *Government-Wide Financial Statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the District's assets, deferred inflows and outflows of resources and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents the information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future periods.

Both of the government-wide statements distinguish functions of the District that are principally supported by state aid and property taxes (governmental activities) from other functions that are intended to recover all or most of their costs through user fees and charges (business-type activities). The governmental activities of the District include instruction, supporting services, interest on long-term debt and depreciation.

B. Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Wolverine Community Schools, like other state and local governments, uses fund accounting to ensure compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories, governmental funds and fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the Governmental Fund Balance Sheet and

WOLVERINE COMMUNITY SCHOOLS
WOLVERINE, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2024

the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Fiduciary Funds – Fiduciary funds are for assets that belong to others, such as certain student activities and trust agreements where the District is the trustee or fiduciary. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position. We exclude these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

C. Notes to Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in both the government-wide and the fund financial statements.

D. Other Information

In addition to the basic financial statements and accompanying notes, this report further presents Required Supplementary Information (RSI) that explains and supports the information presented in the financial statements.

E. Summary of Net Position

The following schedule summarizes the net position at June 30:

	<u>2024</u>	<u>2023</u>
Assets		
Current Assets	\$ 3,408,839	\$ 8,636,615
Non Current Assets		
Net Other Postemployment Benefits Asset	85,053	0
Capital Assets	13,692,464	8,638,113
Less Accumulated Depreciation	(4,752,774)	(4,579,662)
Total Non Current Assets	<u>9,024,743</u>	<u>4,058,451</u>
Total Assets	<u>12,433,582</u>	<u>12,695,066</u>

Total Net Position (Deficit)	<u>\$ (654,589)</u>	<u>\$ (1,553,386)</u>

F. Analysis of Financial Position

During the fiscal year ended June 30, 2024, the District's net position increased by \$898,797. A few of the more significant factors affecting net position during the year are discussed below:

1. Depreciation Expense

Districts are required to maintain a record of annual depreciation expense and the accumulation of depreciation expense over time. The net increase in accumulated depreciation expense is a reduction in net position.

Depreciation expense is recorded on a straight-line basis over the estimated useful lives of the assets. In accordance with GAAP, depreciation expense is calculated based on the original cost of the asset less an estimated salvage value, where applicable. For the fiscal year ended June 30, 2024, \$173,112 was recorded for depreciation expense.

2. Capital Outlay Acquisitions

For the fiscal year ended June 30, 2024, \$5,054,351 of expenditures were capitalized and recorded as assets of the District. These additions to the District's capital assets will be depreciated over time as explained above. The net effect of the new capital assets, current year depreciation, and the disposition of certain assets is an increase to capital assets in the amount of \$4,881,239 for the fiscal year ended June 30, 2024. The expenditures capitalized were related to a building improvement project, playground landscaping, bus garage roof, a new well, a boiler, and a camera system.

WOLVERINE COMMUNITY SCHOOLS
WOLVERINE, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2024

3. Pension and Other Postemployment Benefits Expense

GASB 68 and GASB 75 require the District to account for its payments to the Michigan Public School Employees' Retirement System in a manner that has a significant effect on the District's change in net position. Based on various factors, the District may report an increase or decrease in net position depending on whether the District's proportionate share of the net pension liability and other postemployment benefits liability/asset increase or decrease in any given year.

G. Results of Operations

The following schedule summarizes the results of operations district-wide for the years ended June 30:

	2024	2023
General Revenues		
Property Taxes	\$ 1,485,344	\$ 1,408,913
State Sources	1,269,847	1,291,895
Investment Earnings	155,751	152,701
Other	20,177	53,527
	2,931,119	2,907,036
Program Revenues		
Charges for Services	15,753	20,119
Operating Grants	1,792,530	1,545,077
Capital Grants	44,881	28,047
	1,853,164	1,593,243
Total Revenues	4,784,283	4,500,279
Expenses		
Instruction	1,972,853	1,805,255
Supporting Services	1,441,084	1,417,790
Community Services	25	0
Payments to Other Governmental Agencies, Facilities Acquisition, and Prior Period Adjustments	3,332	233,411
Interest on Long-Term Debt	295,080	268,240
Unallocated Depreciation	173,112	159,106
	3,885,486	3,883,802
Change in Net Position	\$ 898,797	\$ 616,477

WOLVERINE COMMUNITY SCHOOLS
WOLVERINE, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2024

H. Financial Analysis of the District's Funds

The financial performance of the District as a whole is also reflected in its governmental funds. The following table shows the change in total fund balances of each of the District's governmental funds:

	<u>2024</u>	<u>2023</u>	<u>Increase (Decrease)</u>
Major Funds			
General Fund	\$ 1,757,549	\$ 1,523,445	\$ 234,104
2022 Capital Projects Fund	519,476	5,334,520	(4,815,044)
2022 Debt Retirement Fund	194,615	182,185	12,430
Nonmajor Funds			
Food Service Fund	32,755	47,779	(15,024)
Student Activity Fund	51,312	48,394	2,918
Capital Projects Fund	21,688	96,809	(75,121)
Total Governmental Funds	<u>\$ 2,577,395</u>	<u>\$ 7,233,132</u>	<u>\$ (4,655,737)</u>

General Fund – In 2023-2024, the General Fund's fund balance increased by \$234,104. There was an increase in taxable values causing an increase in property taxes collected. There were also more state sources received and recognized this year. Expenditures decreased due to less capital outlay. These were the primary causes of the increase in fund balance.

2022 Capital Projects Fund – In 2023-2024, the fund balance decreased by \$4,815,044. The decrease is anticipated as the District expends resources from the bond issued in 2022.

2022 Debt Retirement Fund – In 2023-2024, the fund balance increased by \$12,430. The increase is due to property taxes collected being greater than debt service payments.

Food Service Fund – In 2023-2024, the Food Service Fund's fund balance decreased by \$15,024. The decrease is due to federal and state revenues received being less than than food service expenditures.

Student Activity Fund – In 2023-2024, the fund balance increased by \$2,918. The increase is considered minimal, which is the expectation for this fund each year.

Capital Projects Fund – In 2023-2024, the fund balance decreased by \$75,121 as a result of expenditures related to playground improvements and the bus garage roof. The District did not levy a millage for the fund during the year.

I. General Fund Budgetary Highlights

The Uniform Accounting and Budgeting Act of the State of Michigan requires that the local Board of Education approve the original budget for the upcoming fiscal year prior to its starting on July 1. Any amendments made to the operating budget must be approved by the Board prior to the close of the fiscal year on June 30.

WOLVERINE COMMUNITY SCHOOLS
WOLVERINE, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2024

For the 2023-2024 fiscal year, the District amended the General Fund at various times throughout the year, with the Board adopting the changes as summarized below. The following schedule shows a comparison of the original General Fund budget, the final amended General Fund budget, and actual totals from operations:

<u>REVENUES</u>	<u>ORIGINAL BUDGET</u>	<u>FINAL BUDGET</u>	<u>ACTUAL</u>
	\$ 3,641,851	\$ 3,940,140	\$ 3,913,677
 <u>EXPENDITURES</u>			
Instruction	\$ 2,224,910	\$ 2,312,124	\$ 2,228,547
Supporting Services	1,428,047	1,529,951	1,363,928
Community Services	0	525	25
Payments to Other Governmental Agencies, Facilities Acquisition, and Prior Period Adjustments	0	47,044	47,042
Debt Service	40,032	41,014	40,031
Total Expenditures	<u>\$ 3,692,989</u>	<u>\$ 3,930,658</u>	<u>\$ 3,679,573</u>

The changes from original budget and final budget resulted from funding amounts for various programs and associated expenditures becoming clearer throughout the year. Variances between final budgeted revenues and actual figures was considered minimal. The variance between final budgeted and actual expenditures was due to the District budgeting for a worst-case scenario related to expenditures.

J. Capital Asset and Debt Administration

1. Capital Assets

At the end of the 2023-2024 fiscal year, the District had invested \$8,939,690 net of depreciation, in a broad range of capital assets, including school buildings and facilities, school buses and other vehicles, and various types of equipment. This represents a net increase of \$4,881,239 from the prior fiscal year. Depreciation expense for the year amounted to \$173,112 bringing the accumulation to \$4,752,774 as of June 30, 2024. The expenditures capitalized were related to a building improvement project, playground landscaping, bus garage roof, a new well, a boiler, and a camera system. The District has also committed \$384,002 for the completion of the building improvement project. More information related to capital assets can be found in the footnotes of this report.

2. Long-Term Obligations

At June 30, 2024, the District had \$7,387,987 in obligations outstanding. This represents a decrease of \$107,488 from the amount outstanding at the close of the prior fiscal year. Additionally, at June 30, 2024, the District reported its net share of the pension liability of \$4,869,831 and compensated absences in the amount of \$18,916. More information related to the long-term obligations of the District can be found in the footnotes of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2024

K. Factors Bearing on the District's Future

At the time that these financial statements were prepared and audited, the District was aware of the following items that could significantly affect its financial health in the future:

- The District has made significant progress with the bond projects. The bond project is considered substantially complete as the finishing touches are put on during fiscal year 2024-2025.
- Small decreases in the District's pupil count have been offset in recent years by the increases in per pupil funding. That said, with the pupil count being the driving force behind the District's funding, and the changes in state funding (at least for the 2024-2025 fiscal year) the District continues to monitor its student count and do what it can to attract students to the District.
- The District has faced significant staffing challenges for almost all positions, including, but not limited to full-time teaching staff, substitute teacher staff, and other support staff.

L. Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, please contact the Business Office, Wolverine Community Schools, P.O. Box 219, Wolverine, MI 49799.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
JUNE 30, 2024

Total Governmental Fund Balances	\$ 2,577,395
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and are not reported in the funds.	
The cost of the capital assets is	\$ 13,692,464
Accumulated depreciation is	<u>(4,752,774)</u> 8,939,690
Bond discounts (premiums) and deferred charges for bonds issued are expenditures at the modified accrual fund level, but are capitalized and written off over the life of the bonds payable at the district-wide full accrual level.	
Bond Discount (Premium)	(166,648)
Long-term liabilities are not due and payable in the current period and are not reported in the funds.	
Notes from Direct Borrowings and Direct Placements	(162,987)
Bonds Payable	(7,225,000)
Compensated Absences	(18,916)
Net Pension Liability	(4,869,831)
Some assets are not current financial resources and are not reported in the funds.	
Net Other Postemployment Benefits Asset	85,053
Accrued interest is not included as a liability in governmental funds. It is recorded when paid.	
	(50,347)
Deferred outflows and (inflows) of resources related to pensions and other postemployment benefits are applicable to future periods and, therefore, are not reported in the funds.	
Deferred Outflows of Resources - Related to Pension/OPEB	1,853,401
Deferred Inflows of Resources - Related to Pension/OPEB	<u>(1,616,399)</u>
NET POSITION OF GOVERNMENTAL ACTIVITIES (DEFICIT)	<u>\$ (654,589)</u>

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN

FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

YEAR ENDED JUNE 30, 2024

Net Change in Fund Balances Total Governmental Funds \$ (4,655,737)

Amounts reported for governmental activities are different because:

Governmental funds report capital outlay as expenditures; in the Statement of Activities these costs are allocated over their estimated useful lives as depreciation.

Depreciation Expense	(173,112)
Capital Outlay	5,054,351

The issuance of long-term obligations provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Also, governmental funds report the effect of premiums, discounts, and similar items when obligations are first issued, whereas these amounts are deferred and amortized in the Statement of Activities over the life of the long-term obligation issue.

Repayments of Principal on Long-Term Obligations	107,488
Amortization of Bond Premium	5,952

Accrued interest on long-term obligations is recorded in the Statement of Activities when incurred; it is not recorded in governmental funds until it is paid.

Accrued Interest Payable - Beginning of the Year	51,396
Accrued Interest Payable - End of Year	(50,347)

Compensated absences are reported on the accrual method in the Statement of Activities, and recorded as an expenditure when financial resources are used in the governmental funds:

Compensated Absences - Beginning of Year	16,737
Compensated Absences - End of Year	(18,916)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditure in the governmental funds.

Change in Pension/OPEB Related Items	450,242
--------------------------------------	---------

Restricted revenue reported in the governmental funds that is deferred to offset the deferred outflows related to section 147c pension contributions subsequent to the measurement date.

Change in State Aid Funding for Pension	<u>110,743</u>

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Wolverine Community Schools have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The School District ("the District") is located in Cheboygan County with its administrative offices located in Wolverine, Michigan. The District operates under an elected board of education which has responsibility and control over all activities related to public school education within the District. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. However, the District is not included in any other governmental reporting entity as defined by generally accepted accounting principles. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters.

B. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report the information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable. The District does not have any business-type activities or component units.

C. Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from the governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

The District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *2022 Capital Projects Fund* accounts for the resources that are restricted for use on capital projects that were approved by the District's voters.

The *2022 Debt Retirement Fund* accounts for the revenues and expenditures related to the 2022 General Obligation Bonds.

The District reports the following non-major governmental funds:

The *Student Activity Special Revenue Fund* account for revenue sources that are legally restricted to expenditures for school/student activities.

The *Food Service Special Revenue Fund* accounts for revenue sources that are legally restricted to expenditures for food service.

The *Capital Projects Fund* accounts for the resources that are restricted for use on capital projects that were approved by the District's voters.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term obligations are reported as other financing sources.

Property taxes, state and federal aid and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue resource (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

F. Budgetary Information

1. Budgetary Basis of Accounting

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general and special revenue funds.

The District's approved budgets were adopted at the function level for the General Fund and Special Revenue Funds. These are the legal enacted levels under the State Uniform Budgeting and Accounting Act and the level of budgetary control adopted by the Board (the level at which expenditures may not legally exceed appropriations).

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting - under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation - is utilized in the governmental funds. While all appropriations and encumbrances lapse at year-end, value outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- (a) In June, the superintendent submits to the School Board a proposed operating budget for the fiscal year commencing on July 1.
- (b) A public hearing is conducted during June to obtain taxpayer comments.

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

- (c) Prior to June 30, the budget is legally adopted by the School Board resolution pursuant to the Uniform Budgeting and Accounting Act. The Act requires that the budget be amended prior to the end of the fiscal year, when necessary, to adjust appropriations if it appears that revenues and other financial sources will be less than anticipated, or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated.
- (d) The superintendent is charged with general supervision of the budgets and shall hold the department heads responsible for performance of their responsibilities.
- (e) For purposes of meeting emergency needs of the District, transfer of appropriations may be made by the authorization of the superintendent. Such transfers of appropriations must be approved by the Board of Education at its next regularly scheduled meeting.
- (f) During the year the budgets are monitored and amendments to the budget resolution are made when it is deemed necessary.
- (g) Budgeted amounts are as originally adopted in June 2023 or as amended by the School Board of Education throughout the year.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments. The government considers all highly liquid investments (including certificates of deposit) to be cash equivalents.

2. Investments

In accordance with Michigan Compiled Laws, the District is authorized to invest in the following investment vehicles:

- (a) Bonds, securities, and other obligations of the United States or an agency or instrumentality of the United States.
- (b) Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank which is a member of the Federal Deposit Insurance Corporation (FDIC) or a savings and loan association which is a member of the Federal Savings and Loan Insurance Corporation (FSLIC) or a credit union which is insured by the National Credit Union Administration (NCUA), but only if the bank, savings and loan association, or credit union is eligible to be a depository of surplus funds belonging to the State under section 5 or 6 of Act No. 105 of the Public Acts of 1855, as amended, being Section 21.145 and 21.146 of the Michigan Compiled Laws.
- (c) Commercial paper rated at the time of purchase within the three (3) highest classifications established by not less than two (2) standard rating services and which matures not more than 270 days after the date of purchase.

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

- (d) The United States government or federal agency obligations repurchase agreements.
- (e) Bankers acceptances of United States banks.
- (f) Mutual funds composed of investment vehicles, which are legal for direct investment by local units of government in Michigan.

Michigan Compiled Laws allow for collateralization of government deposits, if the assets for pledging are acceptable to the State Treasurer under Section 3 of 1855 PA 105, MCL 21.143, to secure deposits of State surplus funds, securities issued by the Federal Loan Mortgage Corporation, Federal National Mortgage Association, or Government National Mortgage Association.

3. *Inventory and Prepaid Items*

Inventories are valued at cost using the first in/first out (FIFO) method. Inventories in the special revenue funds consisting of expendable supplies held for consumption, are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenditures. The nonspendable fund balance at the governmental fund level is equal to the amount of inventories and prepaid items at year-end to indicate the portion of the governmental fund balances that are nonspendable.

4. *Capital Assets*

Capital assets, which include property and equipment, are reported in the governmental activities' column in the District-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value as of the date of the donation. Donated capital assets are only reported under the accrual method of accounting.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Land and construction in progress, if any, are not depreciated. Capital assets of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Additions	40-50
Furniture and Equipment	3-10
Vehicles	5-10

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

5. *Unearned Revenue*

Unearned revenue arises when resources are received by the District before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, revenue is recognized. The District recognizes unearned revenue related to funds received by the District from the State of Michigan for various programs.

6. *Defined Benefit Plans*

For purposes of measuring the net pension liability and other postemployment benefits asset, deferred outflows of resources and deferred inflows of resources related to pensions and other postemployment benefits, and pension and other postemployment benefits expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPSERS) and additions to/deductions from MPSERS fiduciary net position have been determined on the same basis as they are reported by MPSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

7. *Long-Term Obligations*

In the government-wide financial statements, long-term and other obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method which approximates the effective interest method over the term of the related obligation.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of obligations issued are reported as other financing sources. Premiums received on obligation issuances are reported as other financing sources while discounts on obligation issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual obligation proceeds received, are reported as debt service expenditures.

8. *Compensated Absences*

District policy permits certain employees to accumulate earned but unused sick pay and other compensation benefits. The amount allowable to be compensated for depends on position and the longevity of the individual employee. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

9. *Deferred Outflows/Inflows of Resources*

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District reports deferred outflows of resources related to its pension plan and other postemployment benefits plan, which are discussed in Note 2-G and Note 2-H of this report.

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. The separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District reports deferred inflows of resources related to its pension plan and other postemployment benefits plan, which are discussed in Note 2-G and Note 2-H of this report.

10. Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

11. Fund Balance Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

12. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District’s highest level of decision-making authority. The governing board is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year’s appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

13. Use of Estimates

The process of preparing basic financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

14. Restricted Assets

Certain cash and investment resources are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants, and they are maintained in separate bank accounts.

H. Revenues and Expenditures/Expenses

1. State Revenue

The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to school districts based on information supplied by the districts. For the year ended June 30, 2024 the foundation allowance was based on a three year blend consisting of pupil membership counts taken in February 2021, October 2021, February 2022, October 2022, February 2023, and October 2023. For fiscal year ended June 30, 2024, the per pupil foundation allowance was \$9,608 for Wolverine Community Schools.

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills and an allocated portion of state sales and other taxes. The local portion of the foundation is funded primarily by non-homestead property taxes, which may be levied at a rate of up to 18 mills. The State revenue is recognized during the foundation period and is funded through payments from October 2023 to August 2024. Thus, the unpaid portion at June 30th is reported as due from other governmental units.

The District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain governmental funds require an accounting to the state of the expenditures incurred. For categorical funds meeting this requirement, funds received, which are not expended by the close of the fiscal year are recorded as unearned revenue. Other categorical funding is recognized when the appropriation is received.

2. Program Revenues

Amounts reported as program revenue include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, state foundation aid, certain revenue from the intermediate school district and other unrestricted items are not included as program revenue but instead as *general revenues*.

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

3. Property Taxes

Property taxes levied by the District are collected by various municipalities and periodically remitted to the District. Property taxes are assessed as of January 1, and due July 1. The levy becomes delinquent as of February 14 for all taxpayers. After these dates, unpaid taxes are subject to penalties and interest.

For the year ended June 30, 2024, the District levied the following amounts per \$1,000 of taxable valuation:

Fund	Mills
General Fund - Non-Homestead	18.0000
General Fund - Commercial PPT	6.0000
Debt Retirement Fund	3.1000

NOTE 2– DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

As of June 30, 2024, the District had deposits subject to the following risks:

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. As of June 30, 2024, the District’s bank balance was \$742,798, of which \$182,597 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Interest rate risk – In accordance with its investment policy, the District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the District’s cash requirements.

	Fair Value	Weighted Average Maturity (Years)
MILAF+ Cash Management Class	\$ 450,477	N/A
MILAF+ MAX Class	1,595,114	N/A
	<u>\$ 2,045,591</u>

Credit risk. State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSOs).

Concentration of credit risk. The District will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the District's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality.

	Fair Value	Standard & Poor's Rating
MILAF+ Cash Management Class	\$ 450,477	AAAm
MILAF+ MAX Class	1,595,114	AAAm
	<u>\$ 2,045,591</u>	

Foreign currency risk. The District is not authorized to invest in investments which have this type of risk; therefore, it is not addressed in the investment policy.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities allowed by law; and pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which the District will do business.

Fair Market Value Disclosure - The District is required to disclose amounts within a framework established for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Quoted prices in active markets for identical securities.

Level 2: Prices determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include prices for similar securities, interest rates, prepayment speeds, credit risk and others.

Level 3: Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable or deemed less relevant, unobservable inputs may be used. Unobservable inputs reflect the reporting entity's own assumptions about the factors market participants would use in pricing the security and would be based on the best information available.

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The District voluntarily invests certain excess funds in external pooled investment funds which included money market funds. One of the pooled investment funds utilized by the District is the Michigan Investment Liquid Asset Fund (MILAF). MILAF funds are considered external investment pools as defined by the GASB and as such are recorded at amortized cost which approximate fair value. The MILAF (MAX Class) fund requires notification of redemptions prior to 14 days to avoid penalties. These funds are not subject to the fair value disclosures.

	<u>Amortized Cost</u>
MILAF+ Cash Management Class	\$ 450,477
MILAF+ MAX Class	1,595,114
	<u>\$ 2,045,591</u>

The cash and cash equivalents and investments referred to above have been reported in either the cash and cash equivalents or investments captions on the financial statements, based upon criteria disclosed in Note 1.

The following summarizes the categorization of these amounts as of June 30, 2024:

	<u>Primary Government</u>
Cash and Cash Equivalents	\$ 663,946
Restricted Cash	30,681
Investments	1,433,727
Restricted Investments	611,864
	<u>\$ 2,740,218</u>

B. Receivables

Receivables as of year-end for the government's individual major funds and nonmajor, and fiduciary funds in the aggregate; including the applicable allowances for uncollectible accounts, are as follows:

	<u>General Fund</u>
Receivables:	
Accounts Receivable	\$ 312
Due from Other Governmental Units	660,850
	<u>\$ 661,162</u>

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

Amounts due from other governments include amounts due from federal, state, and local sources for various projects and programs. The allowance for doubtful accounts is not considered to be material for disclosure.

C. Interfund Receivables, Payables, and Transfers

Interfund Receivables and Payables as shown in the individual fund financial statements at June 30, 2024, were:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Food Service Fund	\$ 818
Food Service Fund	General Fund	575
Student Activity Fund	General Fund	38
2022 Debt Retirement Fund	General Fund	42,199
2022 Capital Projects Fund	General Fund	44
		<u>\$ 43,674</u>

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All balances are expected to be repaid within one year.

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. There were no individual fund transfers during 2023-2024.

D. Capital Assets

A summary of changes in the District's capital assets follows:

	Balance			Balance
	June 30, 2023	Additions	Deletions	June 30, 2024
Capital Assets Not Being Depreciated				
Construction in Progress	\$ 2,049,710	\$ 4,926,825	\$ 30,311	\$ 6,946,224

Buses and Vehicles	444,629	0	0	444,629
Furniture and Equipment	328,011	92,627	0	420,638
Subtotal	<u>6,588,403</u>	<u>157,837</u>	<u>0</u>	<u>6,746,240</u>

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

	Balance June 30, 2023	Additions	Deletions	Balance June 30, 2024
Less Accumulated Depreciation for:				
Buildings and Improvements	2,930,771	119,398	0	3,050,169
Land Improvements	1,148,394	3,829	0	1,152,223
Buses and Vehicles	213,215	33,881	0	247,096
Furniture and Equipment	287,282	16,004	0	303,286
Accumulated Depreciation	4,579,662	173,112	0	4,752,774
Net Capital Assets Being Depreciated	2,008,741	(15,275)	0	1,993,466
Net Capital Assets	\$ 4,058,451	\$ 4,911,550	\$ 30,311	\$ 8,939,690

Depreciation for the fiscal year ended June 30, 2024, amounted to \$173,112. The District determined that it was impractical to allocate depreciation to the various governmental activities as the assets serve multiple functions.

E. Long-Term Obligations

The District issues general obligation bonds to provide funds for the acquisition, construction, and improvement of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. The following is a summary of governmental long-term obligations for the District for the year ended June 30, 2024:

	GENERAL OBLIGATION BONDS	NOTES FROM DIRECT BORROWINGS AND DIRECT PLACEMENTS	COMPENSATED ABSENCES	TOTAL
Balance, July 1, 2023	\$ 7,300,000	\$ 195,475	\$ 16,737	\$ 7,512,212
Additions	0	0	2,259	2,259
Deletions	(75,000)	(32,488)	(80)	(107,568)
Balance, June 30, 2024	7,225,000	162,987	18,916	7,406,903
Less current portion	(85,000)	(33,822)	Unknown	(118,822)
Total due after one year	\$ 7,140,000	\$ 129,165	\$ 18,916	\$ 7,288,081

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

At June 30, 2024, the District's long-term obligations consisted of the following:

General Obligation Bonds

2022 School Building and Site Bonds due in annual installments of \$85,000 to \$435,000 through May 1, 2052, interest at 4.000% to 4.125%. \$ 7,225,000

Notes From Direct Borrowings and Direct Placements

Bus Loan 162,987

Other Long-Term Obligations

Compensated Absences 18,916

Total \$ 7,406,903

The annual requirements to amortize the General Obligation Bonds and Notes from Direct Borrowings and Direct Placements outstanding as of June 30, 2024, including interest payments of \$5,136,176 are as follows:

<u>Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Amounts Payable</u>
2025	\$ 118,822	\$ 297,747	\$ 416,569
2026	135,190	292,979	428,169
2027	146,613	287,555	434,168
2028	168,091	281,678	449,769
2029	164,271	247,933	412,204
2030-2034	955,000	1,272,285	2,227,285
2035-2039	1,190,000	1,060,887	2,250,887
2040-2044	1,455,000	803,290	2,258,290
2045-2049	1,790,000	486,220	2,276,220
2050-2052	1,265,000	105,602	1,370,602
	<u>\$ 7,387,987</u>	<u>\$ 5,136,176</u>	<u>\$ 12,524,163</u>

Interest expense for the year ended June 30, 2024, was \$295,080.

The annual requirements to amortize the pension liability and compensated absences are uncertain because it is unknown when the repayments will be made. These liabilities will be paid by the fund in which the employee worked, including the general fund and other governmental funds.

F. Defined Benefit Plan and Postemployment Benefits

Plan Description

The Michigan Public School Employees' Retirement System (MPSERS) (System) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the Board's authority to promulgate or amend the provisions of

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

the System. MPSERS issues a publicly available Annual Comprehensive Financial Report that can be obtained at www.michigan.gov/orsschools.

The System's pension plan was established by the State to provide retirement, survivor and disability benefits to public school employees. In addition, the System's health plan provides all retirees with option of receiving health, prescription drug, dental and vision coverage under the Michigan Public School Employees' Retirement Act.

The System is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State of Michigan Investment Board serves as the investment fiduciary and custodian for the System.

Benefits Provided - Overall

Participants are enrolled in one of multiple plans based on date of hire and certain voluntary elections. A summary of the plans offered by MPSERS is as follows:

<u>Plan Name</u>	<u>Plan Type</u>	<u>Plan Status</u>
Basic	Defined Benefit	Closed
Member Investment Plan (MIP)	Defined Benefit	Closed
Pension Plus	Hybrid	Closed
Pension Plus 2	Hybrid	Open
Defined Contribution	Defined Contribution	Open

Benefits Provided - Pension

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Retirement benefits for DB plan members are determined by final average compensation and years of service. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

Prior to Pension reform of 2010 there were two plans commonly referred to as Basic and the Member Investment Plan (MIP). Basic Plan member's contributions range from 0% - 4%. On January 1, 1987, the Member Investment Plan (MIP) was enacted. MIP members enrolled prior to January 1, 1990, contribute at a permanently fixed rate of 3.9% of gross wages. Members first hired January 1, 1990, or later including Pension Plus Plan members, contribute at various graduated permanently fixed contribution rates from 3.0% - 7.0%.

Pension Reform 2010

On May 19, 2010, the Governor signed Public Act 75 of 2010 into law. As a result, any member of the Michigan Public School Employees' Retirement System (MPSERS) who became a member of MPSERS after June 30, 2010, is a Pension Plus member. Pension Plus is a hybrid plan that contains a pension component with an employee contribution (graded, up to 6.4% of salary) and a flexible and transferable defined contribution (DC) tax-deferred investment account that earns an employer match of 50% (up to 1% of salary) on employee contributions. Retirement benefits for Pension Plus

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

members are determined by final average compensation and years of service. Disability and survivor benefits are available to Pension Plus members.

Pension Reform 2012

On September 4, 2012, the Governor signed Public Act 300 of 2012 into law. The legislation grants all active members who first became a member before July 1, 2010, and who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their pension. Any changes to a member's pension are effective as of the member's *transition date*, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under the reform, members voluntarily chose to increase, maintain, or stop their contributions to the pension fund.

An amount determined by the member's election of Option 1, 2, 3, or 4 described below:

Option 1 - Members voluntarily elected to increase their contributions to the pension fund as noted below and retain the 1.5% pension factor in their pension formula. The increased contribution would begin as of their transition date and continue until they terminate public school employment.

- Basic plan members: 4% contribution
- Member Investment Plan (MIP)-Fixed, MIP-Graded, and MIP-Plus members: a flat 7% contribution

Option 2 - Members voluntarily elected to increase their contribution to the pension fund as stated in Option 1 and retain the 1.5% pension factor in their pension formula. The increased contribution would begin as of their transition date and continue until they reach 30 years of service. If and when they reach 30 years of service, their contribution rates will return to the previous level in place as of the day before their transition date (0% for Basic plan members, 3.9% for MIP-Fixed, up to 4.3% for MIP-Graded, or up to 6.4% for MIP-Plus). The pension formula for any service thereafter would include a 1.25% pension factor.

Option 3 - Members voluntarily elected not to increase their contribution to the pension fund and maintain their current level of contribution to the pension fund. The pension formula for their years of service as of the day before their transition date will include a 1.5% pension factor. The pension formula for any service thereafter will include a 1.25% pension factor.

Option 4 - Members voluntarily elected to no longer contribute to the pension fund and therefore are switched to the Defined Contribution plan for future service as of their transition date. As a DC participant they receive a 4% employer contribution to the tax-deferred 401(k) account and can choose to contribute up to the maximum amounts permitted by the IRS to a 457 account. They vest in employer contributions and related earnings in their 401(k)-account based on the following schedule: 50% at 2 years, 75% at 3 years, and 100% at 4 years of service. They are 100% vested in any personal contributions and related earnings in their 457 account. Upon retirement, if they meet age and service requirements (including their total years of service), they would also receive a pension (calculated based on years of service and final average compensation as of the day before their transition date and a 1.5% pension factor).

Members who did not make an election before the deadline defaulted to Option 3 as described above. Deferred or nonvested public school employees on September 3, 2012, who return to public school employment on or after

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

September 4, 2012, will be considered as if they had elected Option 3 above. Returning members who made the retirement plan election will retain whichever option they chose.

Employees who first work on or after September 4, 2012, choose between two retirement plans: The Pension Plus Plan and a Defined Contribution that provides a 50% employer match up to 3% of salary on employee contributions.

Final Average Compensation (FAC) - Average of highest 60 consecutive months for Basic Plan members and Pension Plus members (36 months for MIP members). FAC is calculated as of the last day worked unless the member elected Option 4, in which case the FAC is calculated at the transition date.

Pension Reform of 2017

On July 13, 2017, the Governor signed Public Act 92 of 2017 into law. The legislation closed the Pension Plus Plan to newly hired employees as of February 1, 2018, and created a new, optional Pension Plus 2 Plan with similar plan benefit calculations but containing a 50/50 cost share between the employee and the employer, including the cost of future unfunded liabilities. The assumed rate of return on the Pension Plus 2 Plan is 6%. Further, under certain adverse actuarial conditions, the Pension Plus 2 Plan will close to new employees if the actuarial funded ratio falls below 85% for two consecutive years. The law included other provisions to the retirement eligibility age, plan assumptions, and unfunded liability payment methods.

Benefits Provided - Other Postemployment Benefit (OPEB)

Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree health care recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP-Graded plan members), the subsidy is the maximum allowed by statute. To limit future liabilities of Other Postemployment Benefits, members who first worked on or after July 1, 2008, (MIP-Plus plan members), have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurances as of that date.

Retiree Healthcare Reform of 2012

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees' Retirement System, who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's *transition date*, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable,

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions will be deposited into their 401(k) accounts.

Regular Retirement (no reduction factor for age)

Eligibility - A Basic plan member may retire at age 55 with 30 years credited service; or age 60 with 10 years credited service. For Member Investment Plan (MIP) members, age 46 with 30 years credited service; or age 60 with 10 years credited service; or age 60 with 5 years of credited service provided member worked through their 60th birthday and has credited service in each of the last 5 years. For Pension Plus Plan (PPP) members, age 60 with 10 years of credited service.

Annual Amount - The annual pension is paid monthly for the lifetime of a retiree. The calculation of a member's pension is determined by their pension election under PA 300 of 2012.

Member Contributions

Depending on the plan selected, member contributions range from 0% - 7% for pension and 0% - 3% for other postemployment benefits. Plan members electing the Defined Contribution Plan are not required to make additional contributions.

Employer Contributions

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of pension benefits and OPEB. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The normal cost is the annual cost assigned under the actuarial funding method, to the current and subsequent plan years. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis.

Pension and OPEB contributions made in the fiscal year ending September 30, 2023, were determined as of the September 30, 2020, actuarial valuations. The pension and OPEB benefits, the unfunded (overfunded) actuarial accrued liabilities as of September 30, 2020, are amortized over a 16-year period beginning October 1, 2022, and ending September 30, 2038.

School districts' contributions are determined based on employee elections. There are several different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS. The range of rates is as follows:

	<u>Pension</u>	<u>Other Postemployment Benefit</u>
October 1, 2022 - September 30, 2023	13.75% - 20.16%	7.21% - 8.07%
October 1, 2023 - September 30, 2024	13.90% - 23.03%	7.06% - 8.31%

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

The District's pension contributions for the year ended June 30, 2024, were equal to the required contribution total. Total pension contributions were approximately \$662,100. Of the total pension contributions, approximately \$639,000 was contributed to fund the Defined Benefit Plan and approximately \$23,100 was contributed to fund the Defined Contribution Plan.

The District's OPEB contributions for the year ended June 30, 2024, were equal to the required contribution total. Total OPEB contributions were approximately \$134,700. Of the total OPEB contributions, approximately \$121,200 was contributed to fund the Defined Benefit Plan and approximately \$13,500 was contributed to fund the Defined Contribution Plan.

These amounts, for both pension and OPEB benefit, include contributions funded from State Revenue Section 147c restricted to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate (100% for pension and 0% for OPEB).

G. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of September 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation date of September 30, 2022, and rolled-forward using generally accepted actuarial procedures. The District's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined.

MPSERS (Plan) Non-University Employers Net Pension Liability

	<u>September 30, 2023</u>	<u>September 30, 2022</u>
Total Pension Liability	\$ 94,947,828,557	\$ 95,876,795,620
Fiduciary Net Position	(62,581,762,238)	(58,268,076,344)
Net Pension Liability	<u>\$ 32,366,066,319</u>	<u>\$ 37,608,719,276</u>
District's Proportionate Share %	0.01504610%	0.01471427%
District's Proportionate Share of Net Pension Liability	\$ 4,869,831	\$ 5,533,848

Pension Expense and Deferred Inflows and Outflows of Resources Related to Pensions

For the year ended June 30, 2024, the District recognized pension expense of \$508,322.

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 153,726	\$ 7,460
Section 147c revenue related to District Pension contributions subsequent to measurement date	0	297,214
Changes of assumptions	659,884	380,474
Net difference between projected and actual earnings on pension plan investments	0	99,653
Changes in proportion and differences between District contributions and proportionate share of contributions	89,036	102,697
District contributions subsequent to the measurement date	615,834	0
Total	<u>\$ 1,518,480</u>	<u>\$ 887,498</u>

\$615,834 reported as deferred outflows of resources and \$297,214 reported as deferred inflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

Other amounts reported as deferred outflows of resources (+) and deferred inflows of resources (-) related to pensions will be recognized in pension expense as follows:

<u>Year Ended September 30,</u>	<u>Amount</u>
2024	\$ 58,034
2025	78,249
2026	236,888
2027	(60,809)
	<u>\$ 312,362</u>

H. OPEB Liabilities/Asset, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of September 30, 2023, and the total OPEB liability (asset) used to calculate the net OPEB liability (asset) was determined by an actuarial valuation date of September 30, 2022, and rolled-forward using generally accepted actuarial procedures. The District's proportion of the net OPEB liability (asset) was based on a projection of its long-term share of contributions to the OPEB plan relative to the projected contributions of all participating reporting units, actuarially determined.

OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB

For the year ended June 30, 2024, the District recognized OPEB benefit of \$191,014.

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 0	\$ 642,706
Changes of assumptions	189,343	22,801
Net difference between projected and actual earnings on OPEB plan investments	259	0
Changes in proportion and differences between District contributions and proportionate share of contributions	33,099	63,394
District contributions subsequent to the measurement date	112,220	0
Total	<u>\$ 334,921</u>	<u>\$ 728,901</u>

\$112,220 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability/asset in the subsequent fiscal year.

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

Other amounts reported as deferred outflows of resources (+) and deferred inflows of resources (-) related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended September 30,</u>	<u>Amount</u>
2024	\$ (172,306)
2025	(165,175)
2026	(58,592)

2028	(40,009)
Thereafter	(21,088)
	<u>\$ (506,200)</u>

I. Actuarial Assumptions

Investment Rate of Return for Pension - 6.00% a year, compounded annually net of investment and administrative expenses for the MIP, Basic, Pension Plus, and Pension Plus 2 Plan groups.

Investment Rate of Return for OPEB - 6.00% a year, compounded annually net of investment and administrative expenses.

Salary Increases - The rate of pay increase used for individual members is 2.75% - 11.55%, including wage inflation at 2.75%.

Inflation - 3.0%.

Mortality Assumptions -

Retirees: PubT-2010 Male and Female Retiree Mortality Tables scaled by 116% for males and 116% for females and adjusted for mortality improvements using projection scale MP-2021 from 2010.

Active: PubT-2010 Male and Female Employee Mortality Tables scaled 100% and MP-202 adjusted for mortality improvements using projection scale from 2010.

Disabled Retirees: PubNS-2010 Male and Female Disabled Retiree Mortality Tables scaled 100% and adjusted for mortality improvements using projection scale MP-2021 from 2010.

Experience Study - The annual actuarial valuation report of the System used for these statements is dated September 30, 2022. Assumption changes as a result of an experience study for the periods 2017 through 2022 have been adopted by the System for use in the determination of the total pension and OPEB liability beginning with the September 30, 2023 valuation.

The Long-Term Expected Rate of Return on Pension and Other Postemployment Benefit Plan Investments - The pension rate was 6.00% (MIP, Basic, Pension Plus Plan, and Pension Plus 2 Plan), and the other postemployment benefit rate was 6.00%, net of investment and administrative expenses determined using a building block method in

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

which best-estimate ranges of expected future real rates of return (expected returns, net of pension and OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Cost of Living Pension Adjustments - 3.0% annual non-compounded for MIP members.

Healthcare Cost Trend Rate for Other Postemployment Benefit - Pre 65, 7.50% for year one and graded to 3.5% in year fifteen. Post 65, 6.25% for year one and graded to 3.5% in year fifteen.

Additional Assumptions for Other Postemployment Benefit Only - Applies to individuals hired before September 4, 2012:

Opt Out Assumption - 21% of eligible participants hired before July 1, 2008, and 30% of those hired after June 30, 2008, are assumed to opt out of the retiree health plan.

Survivor Coverage - 80% of male retirees and 67% of female retirees electing two-person coverage are assumed to have coverage continuing after the retiree's death.

Coverage Election at Retirement - 75% of male and 60% of female future retirees who elected coverage are assumed to elect coverage for 1 or more dependents.

The target asset allocation at September 30, 2023, and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Investment Category</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return*</u>
Domestic Equity Pools	25.00%	5.80%
Private Equity Pools	16.00%	9.60%
International Equity Pools	15.00%	6.80%
Fixed Income Pools	13.00%	1.30%
Real Estate & Infrastructure Pools	10.00%	6.40%
Absolute Return Pools	9.00%	4.80%
Real Return/Oppportunistic Pools	10.00%	7.30%
Short-Term Investment Pools	2.00%	0.30%
	<u>100%</u>	

*Long-term rate of return are net of administrative expenses and 2.7% inflation.

Rate of Return

For fiscal year ended September 30, 2023, the annual money-weighted rate of return on pension and OPEB plan investments, net of pension and OPEB plan investment expense, was 8.29% and 7.94%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

Pension Discount Rate

A single discount rate of 6.00% was used to measure the total pension liability. This discount rate was based on the expected rate of return on pension plan investments of 6.00%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions from school districts will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

OPEB Discount Rate

A single discount rate of 6.00% was used to measure the total OPEB liability/asset. This discount rate was based on the long-term expected rate of return on OPEB plan investments of 6.00%. The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that school districts contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability/asset.

Sensitivity of the District's Proportionate Share of Net Pension Liability to Changes in the Discount Rate

The following presents the Reporting Unit's proportionate share of the net pension liability calculated using a single discount rate of 6.00%, as well as what the Reporting Unit's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

1% Decrease	Pension Discount Rate	1% Increase
\$ 6,579,127	\$ 4,869,831	\$ 3,446,780

Sensitivity of the District's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Discount Rate

The following presents the District's proportionate share of the net OPEB liability (asset) calculated using a single discount rate of 6.00%, as well as what the District's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

1% Decrease	OPEB Discount Rate	1% Increase

J. Pension and OPEB Plan Fiduciary Net Position

Detailed information about the pension and OPEB plan's fiduciary net position is available in the separately issued Michigan Public School Employees Retirement System 2023 Annual Comprehensive Financial Report.

K. Payables to the Pension and OPEB Plan

As of June 30, 2024, the District is current on all required pension and other postemployment benefit plan payments. As of June 30, 2024, the District reported payables in the amount of \$102,892 to the pension and OPEB plan. These amounts represent accruals for summer pay primarily for teachers and the contributions due and funded from state revenue Section 147c restricted to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL).

L. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees' and natural disasters. The District participates in two distinct pools of educational institutions within the State of Michigan for self-insuring property and casualty and workers' disability compensation. The pools are considered public entity risk pools. The District pays annual premiums under a retrospectively rated policy to the pools for the respective insurance coverage. In the event a pool's total claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to special assessment to make up the deficiency. The District has not been informed of any special assessments being required. The workers' compensation pool and the property casualty pool maintain reinsurance for claims generally in excess of \$750,000 for each occurrence with the overall maximum coverage varying depending on the specific type of coverage of reinsurance.

The District continues to carry commercial insurance for other risks of loss, including employee health insurance. No settlements have occurred in excess of coverage for June 30, 2024, or any of the prior three years.

M. Contingencies

Under the terms of various federal and state grants and regulatory requirements, periodic audits are required, and certain cost may be questioned as not being appropriate expenditures under the terms of the grants and

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

requirements. Such audits could lead to reimbursement of the grantor or regulatory agencies. However, management does not believe such disallowances, if any, would be material to the financial position of the District.

N. Commitments

As of the June 30, 2024, the District has committed to the following:

- The District has approved contracts for the building improvement project for \$7,406,871, of which \$384,002 remains to be expensed.

O. Subsequent Events

Subsequent to June 30, 2024, the District purchased a vehicle at a cost of approximately \$53,500 and approved building improvement bids for approximately \$22,000. The financial statements have not been adjusted as a result of these subsequent events.

P. GASB Statement No. 87 – Leases

It has been determined that the District has leases as defined by GASB Statement No. 87. However, the total of these leases has been determined they are not significant enough to warrant disclosure.

Q. GASB Statement No. 96 – Subscription-Based Information Technology Arrangements

It has been determined that the District has subscription-based information technology arrangements as defined by GASB Statement No. 96. However, the total of these subscription-based information technology arrangements has been determined they are not significant enough to warrant disclosure.

R. Sinking Fund

The Capital Project Fund records capital project activities funded with Sinking Fund millage. For this fund, the District has complied with the applicable provisions of Section 1212 of the Revised School Code.

S. 2022 Capital Projects Fund

The 2022 Capital Project Fund includes capital project activities funded with bonds issued after May 1, 1994. For these capital projects, the District has complied with the applicable provisions of §1351a of the Revised School Code.

Beginning with the year of bond issuance, the District has reported the annual construction activity in the 2022 Capital Projects Fund. The project for which the 2022 School Building and Site Bonds were issued was considered complete on June 30, 2024, and the cumulative expenditures recognized for the construction period were \$7,164,948.

T. Upcoming Accounting Pronouncements

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

than not to be used for time off or otherwise paid in cash or settled through noncash means. This Statement also establishes guidance for measuring a liability for leave that has not been used, generally using an employee's pay rate as of the date of the financial statements. The District is currently evaluating the impact this standard will have on the financial statements when adopted during the 2024-2025 fiscal year.

In December 2023, the GASB issued Statement No. 102, *Certain Risk Disclosures*. This Statement requires a government to assess whether a concentration or constraint makes the government vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. If a government determines that those criteria for disclosure have been met for a concentration or constraint, it should disclose information in notes to financial statements in sufficient detail to enable users of financial statements to understand the nature of circumstances disclosed and the government's vulnerability to the risk of substantial impact. The District is currently evaluating the impact this standard will have on the financial statements when adopted during the 2024-2025 fiscal year.

In April 2024, the GASB issued Statement No. 103, *Financial Reporting Model Improvements*. This Statement establishes new accounting and financial reporting requirements—or modifies existing requirements—related to the following:

- a. Management's discussion and analysis (MD&A);
 - i. Requires that the information presented in MD&A be limited to the related topics discussed in five specific sections:
 - 1) Overview of the Financial Statements,
 - 2) Financial Summary,
 - 3) Detailed Analyses,
 - 4) Significant Capital Asset and Long-Term Financing Activity,
 - 5) Currently Known Facts, Decisions, or Conditions;
 - ii. Stresses detailed analyses should explain why balances and results of operations changed rather than simply presenting the amounts or percentages by which they changed;
 - iii. Removes the requirement for discussion of significant variations between original and final budget amounts and between final budget amounts and actual results;
- b. Unusual or infrequent items;
- c. Presentation of the proprietary fund statement of revenues, expenses, and changes in fund net position;
 - i. Requires that the proprietary fund statement of revenues, expenses, and changes in fund net position continue to distinguish between operating and nonoperating revenues and expenses and clarifies the definition of operating and nonoperating revenues and expenses;

WOLVERINE COMMUNITY SCHOOLS

WOLVERINE, MICHIGAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2024

- ii. Requires that a subtotal for *operating income (loss) and noncapital subsidies* be presented before reporting other nonoperating revenues and expenses and defines subsidies;
- d. Information about major component units in basic financial statements should be presented separately in the statement of net position and statement of activities unless it reduces the readability of the statements in which case combining statements of should be presented after the fund financial statements;
- e. Budgetary comparison information should include variances between original and final budget amounts and variances between final budget and actual amounts with explanations of significant variances required to be presented in the notes to RSI.

The District is currently evaluating the impact this standard will have on the financial statements when adopted during the 2025-2026 fiscal year.
